Attachments: 404.Options.docx

Leif and Mita,

Here's a draft options paper prepared by Simma and Tod that presents **Ex. 5 AC/DP**. It looks like they largely retained the argument that Kavita and I presented as option 1. I'll talk with Kavita to see if we have anything to add. I think the next step would be to run this through Simma's management.

Thanks,

Matt

Subject: RE: **Ex. 5 Deliberative Process (DP)**

Thanks Simma. I took a look at the draft paper and attempted to fill in the spots you identified. I also moved a few things around and supplemented some of the references. Please take a look and let me know what you think. Because of all the formatting, track changes became unmanageable. So this is a clean version. Please just use the compare documents function if you'd like to see the changes in redline. Look forward to discussing. Thanks.

Tod,

Apologies for the delay in sending this. Attached is a draft of a paper – with a few big gaps for Tod to fill in – with **Ex. 5 AC/DP**. I'd welcome your help with it, and Matt and Kavita, feel free to take a look now or after Tod has supplemented.

Thanks so much for your help!
